WORK EXPERIENCE

Front End Engineer
Aera Technology

11/2020 - Present   *Pune, India*

Aera Technology delivers congnitive automation technology built for supply chain giants to automate their operations.

- As a front-end dev, I deliver a delightful user experience. I work with **React, Redux, styled-components, Tailwind CSS, Webpack, Rollup, a full-featured design system and global component library.**
- Within 3 months of employment, I improved the whole tech stack of the product that I'm working on by restructuring the codebase, switching to react-query, CRA 4.0, reducing the bundle size, putting pre-build checks in place and converting the application into a micro-component.
- We implement a micro-front end architecture that combines different products into one seamless web application.

Associate Technical Lead
Harbinger Systems Pvt. Ltd.

10/2017 - 11/2020   *Pune, India*

HSPL is a service based company chiefly working in HR Tech domain

- Worked for a US based employee-engagement SaaS product suite company. I worked closely with product owners to deliver and manage features.
- As a front-end dev, I worked with **React, React Native, Apollo/GraphQL**. Contributed to **a monorepo of infrastructure packages - Full-featured Design System, custom eslint rules, global configurations etc.**
- As a back-end dev, I have worked under the supervision of senior Tech Leads on **C#, F#, SQL server, Microsoft Azure, Service Bus, SignalR and Node.js.**
- Additional responsibilities included managing a team of 7, reviewing code, mentoring junior developers, conducting technical screening and demonstrating work items at the end of the sprints.

Senior Software Engineer
HCL Technologies Ltd.

07/2017 - 10/2017   *Pune, India*

- Worked as a front end developer for Deutsche Bank - for the Asset and Wealth Management vertical.

Software Engineer
Harbinger Systems Pvt. Ltd.

01/2016 - 07/2017   *Pune, India*

- I worked as a junior front end developer. I became well versed with **React, ES6, Redux, Webpack and Gulp**. I contributed heavily to improve the underlying architecture. **Other tech: C#, F#, MS SQL Server, Microsoft VSTS and Microsoft Azure.**
